

Coordinator:

Dr. Elke Saggau, Federal Office for Agriculture and Food, Germany

Deputy Coordinator:

Dr. Elena Rodríguez Valín, Instituto Nacional de Investigación y Tecnología Agraria y Alimentaria, Spain

Agenda for mid-term ERA-NET SusAn Projects Seminar

Wageningen, The Netherlands
10th / 11th April 2019

Seminar objectives:

1. Present the mid-term results of the 14 research projects cofunded by ERA-NET SusAn
2. Provide their contribution to SusAn objectives and their impact on the 3 pillars of sustainability
3. Find best practices in getting stakeholders involved
4. Impulse dissemination and communication activities of the project results

Participants:

- ERA-NET SusAn partners
- Research project coordinators
- Research project participants in charge of communication

Venue Wageningen University & Research, 6708 PB Wageningen, Netherlands

Practical Information: See information package

Wednesday, 10 th April 2019		
09:30 - 10:00	Registration	
10:00 – 10:30	Official welcome by the host Setting the scene welcome by SusAn Coordinator explaining the programme for the two days	Host director LNV and Dr. Elke Saggau, Coordinator – BLE, Germany
10:30 – 11:30	Pitch Session (<i>Speaker appointed by project (coordinator or communication partner) - 3 minute pitches per project</i>) <u>Group I: PIGS (SuSi, SusPigSys, SusPig, PigSys)</u> <u>Group II: CATTLE (Rediverse, SusCatt, SustainBeef, FreeWalk)</u> <u>Group III: SHEEP (Ecolamb, SusSheep, SusTradeOff)</u> <u>Group IV: OTHER SPECIES (BPractice, Pegasus, AnimalFuture)</u>	<i>Moderator: Maria Maia, WP4 Deputy – FCT, Portugal</i>

11:30 – 13:00	Lunch break with poster market	
13:00 – 14:30	Parallel sessions: Part I - Presentation of research projects (4x15min presentation and 30 min open questions at the end) <i>Moderator ILVO</i>	
	<p><u>Group I: PIGS</u></p> <p>SuSI: Sustainability in pork production with immunocastration Prof. Volker Stefanski, University of Hohenheim (UHOH), Germany</p> <p>SusPigSys: Sustainable pig production systems Dr. Sabine Dippel, Friedrich-Loeffler-Institut (FLI), Germany</p> <p>SusPig: Sustainability of pig production through improved feed efficiency Dr. Wendy Rauw, Instituto Nacional de Investigación y Tecnología Agraria y Alimentaria (INIA), Spain</p> <p>PigSys: Improving pig system performance through a whole system approach Dr. Barbara Sturm, University of Kassel (UniKassel), Germany</p> <p><u>Group II: CATTLE</u></p> <p>ReDiverse: Biodiversity within and between European Red dairy breeds - conservation through utilization Prof. Bernt Gulbrandsen, Aarhus University (AU), Denmark</p> <p>SusCatt: Increasing productivity, resource efficiency and product quality to increase the economic competitiveness of forage and grazing based cattle production systems Res. Prof Håvard Steinshamn, The Norwegian Institute of Bioeconomy Research (NIBIO), Norway</p> <p>SUSTAINBEEF: Co-definition and evaluation of SUSTAINable BEEF farming systems based on resources non edible by humans Dr. Sylvain Hennart, Walloon Agricultural Research Center, Belgium</p> <p>FreeWalk: Develop economic sound free walk farming systems elevating animal welfare, health and manure quality, while being appreciated by society Dr Marija Klopčič, University of Ljubljana (UL), Slovenia</p>	
14:30 – 15:00	Networking Coffee break	
15:00 - 16:15	Parallel sessions: Part 2 - Presentation of research projects (3x15min presentation and 30 min open questions at the end) <i>Moderator ELIKA</i>	
	<p><u>Group III: SHEEP</u></p> <p>EcoLamb: Holistic Production to Reduce the Ecological Footprint of Meat Prof. Mario Baratta, University of Turin, Italy</p> <p>SusSheep: Sustainable Sheep Production Dr Sean Fair, University of Limerick, Ireland</p> <p>SusTradeOff: Understanding trade-offs between health and efficiency to improve competitiveness and sustainability of animal production by breeding and management Dr Marie-Hélène Pinard-van der Laan, INRA-GABI, France</p>	

	<u>Group IV: OTHER SPECIES</u>	
	BPRACTICES: New Indicators And On-Farm Practices to Improve Honeybee Health In The AethinaTumida Era In Europe	Dr. Giovanni Formato, IstitutoZooprofilatticoSperimentale del Lazio e della Toscana 'M.Aleandri', Italy
	PEGaSus: Phosphorus efficiency in Gallus gallus and Suscrofa: Bridging the gaps in the phosphorus value chain	Prof. Klaus Wimmers, Leibniz Institute for Farm Animal Biology (FBN), Germany
	AnimalFuture: Steering Animal Production Systems towards Sustainable Future	Dr. Tichit Muriel, Institut national de la recherche agronomique (INRA) , France
16:15 – 16:30	Update on WP4 – Urging questions on the reporting	Dr. Elena Rodríguez, WP4 Leader - INIA Spain
16:30 – 17:30	Campus Visit	<i>Moderator LNV/RVO</i>
19:30	Social dinner	

Thursday, 11th April 2019		
08:00 – 10:00	Farm visit	<i>Moderator LNV/RVO</i>
10:00 – 12:00 Coffee break during workshop	Break-out workshops: 1 - Stakeholders engagement (for projects coordinators) <i>Finding good practices in getting stakeholders involved</i> 2 - Communication (for projects communication partners) <i>Impulse communication activities on the projects and their results.</i> 3 - NC members workshop	<i>Moderator ELIKA</i> <i>Moderator ILVO</i> <i>Moderator BLE</i>
12:00 – 12:30	Communication workshop conclusions (for all)	<i>Moderator ILVO</i>
12:30 – 12:45	Update on WP7 – draft CSRIA	Arnd Bassler, BLE, Germany
12:45	Official goodbye from ERA-NET SusAn coordinator	<u>Dr. Elke Saggau,</u> <u>Coordinator – BLE,</u> <u>Germany</u>
12:45 – 13:30	Networking Lunch
